[Our Next Meeting will be Nov 28th](#)

[October 24th Meeting](#)

Due to Hurricane Rita, we didn't have a meeting in September. I hope everyone is fully recovered from their damage by now. We held our October meeting at Acadian Hardwoods. Business items included:

- Howard Hartman - \$2,233.70
- Richard Hicks - Membership at 76
- Rob Emanuel - Rob Emanuel reports that our website forum section was 'hacked' so he deleted it. If there's enough interest, he'll redefine it. Be sure to check out our website at: www.wwset.org
- Toy Project: Member have completed about 600 toys - need more
- Programs: We are looking for a new program chairman for 2006. Please help us out...

[Raffles](#)

Steve Brady started selling raffle tickets for the items donated by our members. There are four items; a pen made by Kathy Moffatt, a fretwork eagle on a walnut backboard by Winnie Rudd, an Adirondack chair by Dean Partridge and a curly maple box by Richard

Hicks. The drawing will be held at the November meeting. There will be 4 winners - the first winner will get first choice of the items, the second will get second choice and so on. In order to finish the raffle, and since this is the last meeting of the year, the winners must be present at the meeting in order to claim their prize.

[Toys](#)

This will be a slim year for our toy drive. We missed our most productive month due to Hurricane Rita. If you have any toys ready, please be sure to bring them to the meeting. If you can't make the meeting, contact another member so they can bring them for you. Every toy counts - especially this year.

[Our Next Meeting](#)

Our next meeting will be on Monday, November 28th at Acadian Hardwoods in Rose City. The meeting will start at 7PM and I'll be there early to take pictures of your show and tell items. We'll open the floor for nominations and have our annual election of club officers as well as our raffle drawing. Our program will consist of sorting the toys for distribution, a roundtable discussion of shop safety and more detailed discussions about some of the show and tell items.

Club Election

The nominating committee presented a slate of officers for the November election - Steve Brady for President-Elect, Howard Hartman for Treasurer and Richard Hicks for Secretary. We will take nominations from the floor at the November meeting and have the election afterwards.

Door Prize

R. David Shows won the door prize this month. He didn't have a show & tell, so it was worth \$25.00

Show & Tells

Gene Warden brought his dust mask pre-filter to demonstrate why we should all wear our masks all of the time.

Richard Hicks made these boxes out of cypress. These are the boxes we normally make for our toy drive. Cypress does not work very well for these boxes.

Earl Rutherford repaired the base on his goblet with a piece of Texas Ebony

Ray Ward made this folding table to use in his shop. The plans appeared in the American Woodworker Magazine.

Steve Brady used his scroll saw to make the fish intarsia and wolf shadow profile.

Dean Partridge made this breadbox out of pecan. Some of the pieces were from his recent program presentation.

Program

Waid Gauthier presented an excellent program on the basics of building cabinets. His instructions apply to all types of cabinets, furniture as well as kitchen. He presented detailed information on subjects like standard sizes for appliances, cabinet heights and depths, as well as suggestions for optional enhancements for kitchen cabinets. A copy of his presentation is available on our website, www.wwsset.org.

Waid also plans to host a Saturday Workshop on cabinet building in 2006. Waid, thanks for taking the time to prepare and present such a thorough program. I'm sure everyone will save a copy of this valuable information for future reference.
